Instructions for Data Module with Gain Futures API
Updated 11/5/2022

1. Download and install the required Gain Futures API from this link,
   www.wintick.com/files/GAIN_GFAPI_COM_4.7.1007.203.exe

2. Download and install Gain Trader first from:
   http://futures.gaincapital.com/education-center/downloads.cfm

   Sim account, 2 week trial is available from CTG,
   14-day extension available upon request:
   https://info.capitaltradinggroup.com/en/abletrend-by-ablesys-with-ctg-pro-demo-sign-up

3. Enable AbleTrend under 3rd Party Software:
   Access the account portal – https://myaccount.gainfutures.com

   Log in to the website, click on **Other Links**. Then click **Manage 3rd Party Software**. Click on the + sign to enable AbleTrend.

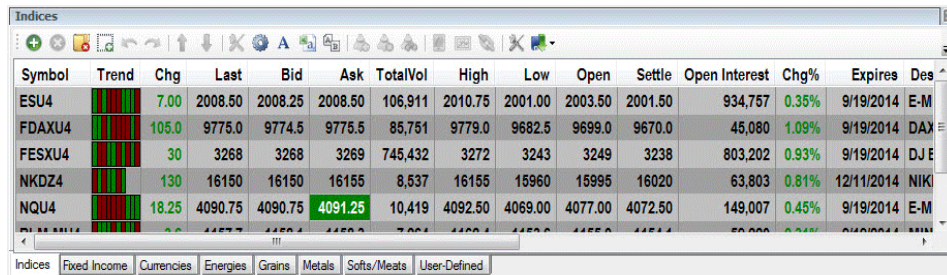

** If you did not get an account directly through Futures Online, the link above may not accept your username and password. Please contact your broker for the Gain Futures account portal link connected to your broker.

Instructions for Data with Gain Futures API

4. Open Gain Trader. Please log-in with your username and password. Once you've logged in, go to the upper left corner, click on File. Make sure the line "Allow Remoting" is not checked.

5. Please make sure the symbols you want to see on the AbleTrend software are listed on the Gain Trader's Quote window

6. When you first launch the AbleTrend software, the login window will pop up, input the following information.

   Choose Your Module: Gain Futures
   Username: (your Gain Futures username)
   Password: (your Gain Futures password)

   For Gain Futures Real or Live accounts,
   Server: prod.gainfutures.com   Port: 9200

   For Gain Futures Demo accounts,
   Server: sim.gainfutures.com   Port: 9200

7. Gain Futures Symbol Format. When you use Ablesys with Gain Futures as your data, it uses the same symbols as in Gain Trader. The symbol format is: (symbol)(month code)(year code)

   Examples: ESZ22, RLM-MZ22, YMZ22, etc.
